

VEIGEL RIGHT HAND CONTROLS

Freedom.

It's an essential part of an active life. It means setting your own agenda, getting behind the wheel and going where you want to go - whether you're running errands across town or visiting family and friends across the country.

Veigel Automotive

Gives you that freedom. For over 90 years, we've been designing and refining customized, ergonomic driving controls that keep you actively involved in your world. Our easy-to-use hand controls make driving simple. Our wide selection of steering controls puts you in command of your vehicle, enabling you to enjoy a driving experience that minimizes fatigue. Our extension and foot controls make everyday tasks convenient for you - from turning the ignition key to setting the parking brake. Our controls look as good as they perform, with finished surfaces and sleek lines to complement your vehicle's interior. They are adaptable to most cars, trucks and vans - yet flexible enough to allow an ambulatory person to operate the vehicle with ease. Our controls are built to be reliable, providing you with years of dependable performance. We back each control with a three-year warranty that gives you peace of mind.
